Press release

KMmaster Life Science Edition recognised as one of the most innovative IT products in Saxony-Anhalt

Pumacy Technologies AG received a nomination for the Regional Innovation Award IT 2011 of Initiative Mittelstand.

Bernburg, 8 March 2011 – KMmaster® Life Science Edition received a nomination for the Regional Innovation Award IT 2011 of Initiative Mittelstand as one of the most innovative IT products in Saxony-Anhalt. The prize was awarded at CeBIT 2011 in Hannover, 3rd March. Award winners were selected from more than 2000 applications.

"This award nomination confirms that we are doing the right thing and going down the right path. The web-based Life Science Edition is a good solution for small and medium organisations in the biotechnology and pharmaceutical sector. It helps to streamline quality processes and GxP compliant documentation, especially for standard operating procedures (SOPs). KMmaster offers a set of features for the SOP management such as qualified electronic signatures which are considered equal to handwritten signatures from a legal point of view," said Dr. Lars Langenberg, CTO at Pumacy Technologies AG

The jury was made up of 100 experts from academia and industry. All applications for the award were judged according to the criteria level of innovation, practical benefits, and suitability for small to medium sized enterprises. The jury chose 35 category award winners and 18 regional award winners. For more information visit http://www.imittelstand.de/innovationspreis/2011/index.html

KMmaster

KMmaster (www.kmmaster.de) is a web-based knowledge management application to manage process-based information and documents

Individually designed solution concepts promote communication and collaboration within teams working in distributed environments. The systematic management of knowledge helps businesses to improve performance and increase profitability.

The KMmaster Life Science Edition is a solution for pharmaceutical and biotechnology companies. The current edition streamlines quality processes and GxP compliant documentation, especially for standard operating procedures (SOPs). The Life Science Edition meets the needs of small companies. It provides a set of features for managing compliance projects such as qualified electronic signatures, trainings management, integrated audit trails, and compliance with FDA 21 CFR Part 11 requirements.

Pumacy Group
